Part B

**CRITERION I – CURRICULAR ASPECTS**

**1.1 – Curriculum Planning and Implementation**

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Being the affiliated institute, the institute implements the curriculum prescribed by Rajiv Gandhi University of Health Sciences (RGUHS), Bengaluru. For effective implementation of the curriculum, the following process is developed and deployed. Plan for effective implementation of curriculum: At the outset, the Principal of the college conducts meetings with the various department heads to develop strategies for effective implementation of the curriculum. Teachers are encouraged to impart the curriculum through innovative teaching methods such as presentations, assignments, discussions, workshops, seminars and dental camps. We follow the academic calendar provided by the University which is circulated to all departments at the beginning of the academic year we prepare teaching plan. The college encourages its faculty members to participate in Orientation/ Refresher Courses/ Workshops/ Seminars organized by the college/university so as to update their knowledge and to improve the teaching practices. The college provides ample books and other teaching and reference materials like journals, magazines and software to enable its teachers to ensure effective delivery of curriculum. Library committee conducts meeting and takes appropriate decision regarding the requirement and procurement of books, journals, e-journals. Academic committees meet regularly ensuring staff have opportunities for keeping their skills and knowledge up to date, encouraging faculty members to evaluate their own learning and teaching practice, encouraging innovation in learning and teaching - planning how practice can be shared amongst lecturers conducting with various international faculties. A regular meeting is conducted by the head of the departments in their concerned department regarding topic distribution and necessary steps taken to improve student performance. The students in the department are motivated to gain strong fundamental knowledge, acquire enough managerial skill and develop an inclination for lifelong learning. The teaching and laboratory plans are approved by Head of Department (HOD) before the start of the academic year and communicated to students by respective course teacher. IQAC monitors the academic activities on regular basis to ensure the execution of timetable. It also monitors execution of academic calendar and teaching learning process and finds the gap, if any. For a group of around 3 undergraduate students a teacher is allocated as Mentor and he does the counselling of poor performing students. The academic performance of students is continuously monitored by conducting unit tests, mock practical examinations during the academic year. Special classes are organized and conducted for the first-year students to help them understand basic concepts of dental surgery. Employing learner centric techniques such as assignments, peer learning, group discussion, use of webinars, case studies, projects, quiz etc., in the delivery of the academic courses. Views of experts from academia and alumni on curriculum are taken regularly. Feedback from institutes and hospitals where our students are working, and alumni is given due importance in defining graduate attributes and design of course outcomes.

**1.4 – Feedback System**

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained
<p>The data from the feedback system was collected and brought to IQAC for further analysis. The collected data is handed over to the Feedback committee. Further suggestions are incorporated by departments, college head and management. Syllabus Review is given by the concerned subject faculty at the end of academic year with regard to implementation of syllabus, mode of presentation, lecture material, suggested books, and updated information. Curriculum Overview is an expositive survey done by every out-going batch with regard to syllabus designing, faculty sufficiency, campus placements, and infrastructure. Academic in charge of each department assess three major aspects, viz., Faculty Performance, Students Support System and Evaluation. The periodical review meeting is conducted to review the following: IQAC organizes various Faculty Development Programmes in order to enrich the competency level and teaching methods of faculty members. The college encourages the faculty members. The college encourages the faculty to pursue higher education, authorizing books,</p>

and publishing papers in journals. The management also conducts seminars/symposia and workshops in every academic year. It is through these programmes we bring out new implications. Apart from this, management supports student involvement through seminars, student's innovations for the further development of curriculum. After collecting and assessing the feedback from the various stakeholders on curriculum aspects, the valuable suggestions if any, will make notice to the university curriculum committee to possible changes in the course structure for the next curriculum regulation. The College follows a continuous review system of the curriculum. The College established an IQAC as a Quality sustenance and Quality enhancement measure. The IQAC has been infusing a sense of belongingness into the entire teaching faculty of the Institution. The functioning of various committees of the College strengthens the quality sustenance and enhancement measures to ensure the effective development of curricula. The college makes efforts to integrate socially relevant issues into the curriculum with the help of the different cells functioning in the college like Career Guidance Cell, Anti-Ragging Cell and NSS. IQAC has been organizing Faculty Development Program every year to enhance the professional competency and teaching pedagogy of the faculty. Curriculum is enriched through mini projects/ student conferences/symposiums and innovative club in the college. Students are also introduced to dentistry as a profession that requires not only technological skills but also an ethical orientation, of the need for lifelong learning, and of the importance of Basic Sciences and Humanities courses. The Institution would like to include the following Curriculum Aspects which enrich the curriculum: 1. International lectures to expose students to overseas knowledge and practice 2. Value added courses. 3. Design experiments in many research courses thereby stimulating creativity and innovation in students.

## CRITERION II – TEACHING- LEARNING AND EVALUATION

### 2.1 – Student Enrolment and Profile

#### 2.1.1 – Demand Ratio during the year

Name of the Programme	Programme Specialization	Number of seats available	Number of Application received	Students Enrolled
BDS	Dentistry	100	200	86
