BLOOD DONATION CAMP AT NAVODAYA MEDICAL COLLEGE AND AWARENESS RALLY

World blood donor day celebrated every year on 14th June to spread awareness about the significance of blood donation and to recognize the contribution of voluntary unpaid blood donors in saving lives.

In this context the NSS unit of Navodaya Dental College had organized the blood donation camp at Navodaya medical college and awareness rally on 14th June 2016 with the theme "**BLOOD CONNECTS US ALL**".

The aim is to raise global awareness of the need for safe blood and blood products for transfusion and of the critical contribution voluntary, unpaid blood donors make to national health systems. A total of 20 voluntary donors donated blood to help the needy people.

On this occasion oral screening for the patients at NMCH was organized by the NSS led by Dr. Zaheer Ahmed, Patients were educated about oral hygiene habits and a total of 150 patients were screened and 50 patients were referred for further treatment at NDCH.

ORAL CANCER SCREENING CAMP

Cancer the evil of the modern world has caused havoc in today's world. According to world health organization India ranks in the top list in the count of the oral cancers followed by the other form of cancer. being a part of the dental fraternity on the occasion of world cancer day, 4th February 2016. a month long oral screening camp was organized by NSS unit headed by Dr.Zaheer Ahmed (NSS programme officer) in collaboration with department of public health dentistry, Navodaya Dental College and hospital Raichur from June –July 2016. Along with the staffs and the postgraduate students a total of 40 interns have participated in this screening programme. The mobile dental van was used for the transportation. The team of doctors visited to various urban

and sub-urban areas of the Raichur city. Doctors examined the oral cavity of patients and reported the various precancerous changes in the oral mucosa of the patients. Various demonstrations using audio visual aids regarding the various causes of cancer were demonstrated to the people who attended the camp. Habit breaking and tobacco cessation advice was demonstrated by the trained doctors to the individuals. Patients who require further treatment and proper advanced habit breaking counselling were referred to Navodaya Dental College and Hospital Raichur. Nearly 300 patients were screened in this one month duration. 'The team motivated the patients regarding the lesions in mouths and how it could lead to cancer in certain cases'. This programme was conducted with a hope that we can move a step forward towards a cancer free society.

A public awareness program was conducted in Primary Health Centre, Harijanwad, Raichur by NSS UNIT Navodaya dental college regarding hand hygiene on 15-10-2018 on the celebration of World Hand Washing day. The programme was presided by Dr.Zaheer Ahmed, NSS programme officer, Dr Santhosh Hunasgi, Principal, Navodaya dental college, Raichur, in presence of Dr Shilpa, Medical officer PHC, Harijanwad. Enlightened the importance of 15-20 seconds of hand washing with soap before meals will improve the health of the individual. Dr. Santhosh Hunasgi informed not only regarding the importance of hand hygiene, but also mentioned not to use mobile phones during meal time which contains microorganisms. House surgeons of Navodaya dental college created awareness by playing a skit and dance. The community of Harijanwad, mainly children, women and anganawadi workers of the PHC were participated. A demonstration on hand washing using soap was done for the participants.

A DEMONSTRATION ON HAND WASHING WAS GIVEN BY DR.SANTOSH HUNSAGI

NATIONAL HEALTH PROGRAMME -WORLD AIDS DAY-2018-19

World Aids Day is observed annually on December 1st since 1988 and is dedicated to raising awareness of the aids pandemic caused by the spread of HIV infection and mourning those who have died of the disease.

The NSS UNIT, Navodaya Dental College, observed this event on 01-12-2018 by involving final year and interns in the awareness campaign with great enthusiasm, Dr. Zaheer Ahmed NSS Programme officer and the students were participated in the awareness rally.

We all were joined by students from other faculties. District collector of Raichur Shri Sharath B, IAS inaugurated the programme along with awareness speech. Later everyone held the placards, banners and slogans to raise the awareness against AIDS. There was a good public response. We reached our destination at Raichur District Health Office by rally and we headed back to our college.

NATIONAL HEALTH PROGRAMME WORLD HYPERTENSION DAY 2018-19

More than one billion people around the world live with hypertension, which is a major cause of cardiovascular disease and premature death worldwide. The burden of hypertension is felt disproportionately in low- and middle-income countries, where two thirds of cases are found, largely due to increased risk factors in those populations in recent decades. What's more, around half of people living with hypertension are unaware of their condition, putting them at risk of avoidable medical complications and death. To mark World Hypertension Day the NSS unit of Navodaya Dental College and Hospital, Raichur had organized camp on world hypertension at Railway station.

ORAL HEALTH AWARENESS PROGRAMME ON WORLD NO TOBACCO DAY

31st May is World No Tobacco Day, The theme of WNTD 2018 is “TOBACCO BREAKS HEART”. This yearly celebration informs the public on the dangers of using tobacco, the business practices of tobacco companies, what WHO is doing to fight the tobacco epidemic, and what people around the world can do to claim their right to health and healthy living and to protect future generations. The Member States of the World Health Organization created World No

Tobacco Day in 1987 to draw global attention to the tobacco epidemic and the preventable death and disease it causes.

All were joined by the students of other faculty. District collector of Raichur inaugurated the programme. Placards were held and pamphlets with slogans were distributed. The rally began to promote the public about “TOBACCO BREAKS HEART”..

We reached the destination i.e., District Health Welfare Office at around 11-30 am where we carried out similar activities for creating awareness and we headed back to our college at 12-30 pm.

**ORAL HEALTH AWARENESS CAMP AT SRI KANAKADASA SEVA SAMITHI
RESIDENTIAL SCHOOL FOR DESTITUTE CHILDREN AND ORPHANAGE CENTER**

The camp was organized at Sri Kanakadasa Seva Samithi Residential School For Destitute Children And Orphanage Center ,orphans had multiple dental problems along with improper oral hygiene practices and careless attitude towards oral health. Oral health education at right age can help to cultivate healthy oral hygiene practices in orphans which will benefit them for lifelong. Caretakers should be educated and trained about oral hygiene practices so that they can implement it and supervise the orphan children. Children were educated about importance of oral hygiene, they were taught in an interactive manner for better understanding and also to increase their intellectual skills.the team of dental doctors Screened 26 Students and Referred16Students for

ORAL HEALTH AWARENESS PROGRAMME ON NATIONAL TOOTH BRUSHING DAY

Oral health is essential to general health and quality of life. Dental caries is the most common chronic diseases and however it can be easily prevented by proper preventive practices. Of all the preventive practices, tooth-brushing has been the most effective and simple way to prevent dental caries as well as periodontal disease. November 7 is observed as National Tooth brushing day in India to reinforce the importance of children's oral health and promote good tooth-brushing habits recommended by dental health professionals. This program is launched from 2015 to educate parents and kids to brush twice daily for at least two minutes to help reduce the risk of oral diseases.

On this day, Department of Public Health Dentistry, NDCH Raichur, has organized a mass tooth brushing demonstration in Government High School, Bijengera In collaboration with Colgate Palmolive, free Oral Health Kit was distributed to all the school children and demonstration of proper brushing technique was done to all the school children. Around 140 school children were provided with Oral Health Kit and benefitted from this program. The school teachers were also educated regarding importance of oral health and maintaining oral hygiene. Students were interested in correcting their brushing technique and demonstrated proper brushing technique on the tooth model.
