WORLD ENVIRONMENT DAY 2023-24 REPORT

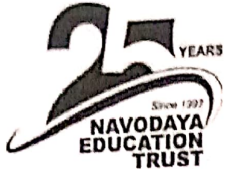

World Environment Day (WED) is celebrated annually on 5th June and is the United Nations' principal vehicle for encouraging awareness and action for the protection of the environment. It was first held in 1974, with the theme "Only One Earth" it has been a platform for raising awareness on environmental issue such as marine pollution, human overpopulation, global warming, sustainable consumption and wildlife crime. World Environment Day is a global platform for public outreach, with participation from over 143 countries annually. In this context the NSS unit of Navodaya Dental College and Hospital celebrated the world environment day on 5th June 2022 with the theme “ONLY ONE EARTH”. This was also the slogan for the conference in 1974 at Stockholm. The main purpose was to spread awareness about the need to protect the environment and the ways to do it.

WORLD ORAL HEALTH DAY 2024

“A HAPPY MOUTH IS ..A HAPPY BODY” Theme focus on the link between oral health and the general health and offers a simple yet powerful way to capture the multifaceted nature of oral health in a concise and relatable manner. Oral diseases are a major health concern for many countries and negatively impact people throughout their lives. Oral diseases lead to pain and discomfort, social isolation and loss of self-confidence, and they are often linked to other serious health issues. And yet, there is no reason to suffer: most oral health conditions are largely preventable and can be treated in their early stages. World Oral Health Day is an initiative of FDI World Dental Federation; an organization that brings together the world of dentistry with the aim of achieving optimal oral health for everyone. World Oral Health Day is celebrated every year on 20th March.

Department of PUBLIC HEALTH DENTISTRY, NAVODAYA DENTAL COLLEGE AND HOSPITAL RAICHUR is celebrating the WORLD ORAL HEALTH DAY 2024 by organizing a month long free dental treatment camp (20/03/2024 to 10/04/2024) and oral health promotion programme in the various urban and rural areas of Raichur.

College of Agriculture celebrates World Oral Health Day in Raichur

Belagavi : The NSS volunteers of College Of Agriculture, UAS, Raichur, celebrated World Oral Health Day recently. At a programme organised on the occasion, Dr.

Somanath Reddy and his team from Navodaya Dental College and Hospital, Raichur and the NSS Programme Officers, Dr Suma T C and Dr Vishwanatha S, Dr Somanath Reddy and his team enlightened the students about the importance of oral hygiene and gave tips on how to maintain it. The students were also taught about various oral diseases, risk factors and prevention methods. It was an informative session as dental health is often neglected by many until it gets severe. The event was a great opportunity for the youngsters to expand their knowledge and cultivate habits to maintain good oral health.

WORLD NO TOBACCO DAY REPORT 2024

THEME- PROTECTING CHILDREN FROM TOBACCO INDUSTRY INTERFERENCE

Tobacco is a global epidemic among young people. Nearly all tobacco use begins in childhood and adolescence. The World Health Organization has designated 31st May of each year as the WORLD NO TOBACCO DAY (WNTD). The theme of WNTD 2024 is "PROTECTING CHILDREN FROM TOBACCO INDUSTRY INTERFERENCE. “The focus of WNTD 2024 is to protect children from tobacco industry. Children are using e-cigarettes at rates higher than adults in all regions, and global estimates are that 37 million youth aged 13-15 years use tobacco.

It’s time to **Step In and Stand Up for a Healthy Future!**

By working together, government, public health organizations, civil society, and empowered youth can create a world where the next generation is free from the dangers of tobacco and nicotine. Department of Public health Dentistry Navodaya Dental College Conducted 11 events from 22nd may 2024 to 4thJune 2024 to create awareness among the general public especially younger generation about the ill effects of tobacco and to provide assistance to quit the habits.

 Navodaya Medical College

Objective:
 World No Tobacco Day (WNTD) on 31 May 2024 will be driven this year by the theme "Protecting children from tobacco industry interference". The focus is on mobilising international efforts to enact stronger regulations.

Tobacco use among the youth is alarmingly high, directly exposing them to increased cancer risks. This undermines efforts to reduce the number of people who develop cancer and die of it. We owe it to the next generation to protect them from tobacco products and deceptive online advertising, and counter the industry's aggressive tactics aimed at renewing the customer base."

Tobacco use is a major contributor to a host of cancers, including those affecting the oral cavity, lungs, liver, stomach, bowel, ovaries, and certain types of leukaemia. It is responsible for 25% of all cancer deaths worldwide, amounting to an estimated 2.5 million deaths annually. In particular, smoking accounts for about 85% of all lung cancer deaths, highlighting the critical need for concerted efforts to reduce tobacco use globally.
