

BEST PRACTICES

PRACTICE 01

Title of the practice- ASSISTANCE FOR EXCELLENCE

Objective-

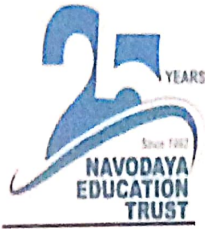

- Encourage positive behaviour.
- To upgrade the knowledge of each subject and its recent advances.
- To help students & gain at par knowledge.
- Innovative teaching and learning.
- To provide students an exposure to the community platform.
- Continuous improvement
- To develop their skills and knowledge and execute it to daily practice.

Context- Learning opportunities and significant real-world career experiences are provided by education outside of the classroom. Academic performance is positively impacted by participation in this. Interns and former students have an edge over other job searchers. It helps pupils learn new skills and instills dependability and responsibility.

Practice- At Navodaya Dental College, students participation in student clubs, mentoring, student committees, sports and cultural organizations offer a distinctive approach to personality development by enhancing their engagement, public speaking, communication, and sense of belonging through a variety of activities.

Participation of students and the staff in extra-curricular activities allows the students to learn the value of teamwork, individual and group responsibilities, competition and a sense of culture and diversity. Education beyond the classroom opportunities provide the staff with students to bring a fresh perspective and ideas. It drives the students and connects learning with interests, talents, passions and aspirations.

These gatherings frequently give members the chance to interact with one another, build networks, and partake in activities they are enthusiastic about, which enhances their overall club experiences. People with similar interests are frequently drawn to these events, which allows them to network, work together, and build important personal and professional partnerships.

Evidence of success:

- Fostered a spirit of cooperation and teamwork in achieving shared objectives.
- It gave them new talents and capacities and expanded their social networks.
- Improved qualities of students like the leadership quality, self confidence, communication skills and teamwork.

Practice 2

Title of the practice- EXTEND AND REACH OUT

Objective-

- To increase the awareness of dental health in people.
- To reach out the corporate society and impart awareness about the dental health and hygiene.
- To encourage the observance of dental health practices, including personal care, professional care, proper diet and oral habits.
- To stimulate the development of resources to make dental care available to all.

Context-

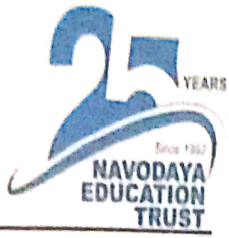

"Reach out to someone" is an idiom that means to try to communicate with someone, usually to offer help or support, or to get their attention towards the dental care. This awareness can be increased only by community engagement where the dental experts can reach out to the community and implement various strategies to improve the awareness of oral hygiene and other practices promoting oral health and also by regular screening by which the diseases can be identified at an early stage.

Practice-

NAVODAYA: THE CAMPUS OF POSSIBILITIES is located in the HYDERABAD-KARNATAKA REGION of North Karnataka. This organization provides corporate society with extension awareness programs because they don't have enough time for dental health and care. The EXTEND AND REACH OUT program aims to raise awareness of dental health and hygiene among corporate society and promote adherence to dental health practices, such as proper diet, oral hygiene, and personal and professional care. Early detection, easy access to treatment, dental health education, awareness, and promotion are the goals of this program.
